HOW IT WORKS

Tracking Success is a "choose your own adventure" style programme. It puts the participants at the center of the action. Within minutes you are transported into the vast and wild African wilderness.

You become the tracker in the complex task of tracking and finding your goal. You make the decisions as you track Africa's most exciting animals.

Expert facilitation and Campfire Discussions link tracking to the real issues your team faces. Leadership and Teamwork content is introduced to drive the lessons home.

LASTING IMPACT FOR YOUR TEAM:

1

Participate in a unique virtual shared experience.

2

Discover a powerful metaphor for improving organisational health.

3

4

A chance to re-focus on what is most important to your team.

Tracking Success can be delivered as a standalone or integrated into an existing programme. It is easily adapted to suit your time and learning requirements.
